THE PROGRAM

Dance Bahia is an intensive dance program focusing on Afro-Brazilian movements, techniques and rhythms. The program is structured around the *Silvestre Technique* created by Rosangela Silvestre, an international recognized choreographer, dancer and teacher based in Salvador, Bahia.

The foundations of the *Silvestre Technique* are found in the gestures and mythology of the dances of the Orixas. The training works with the body structure (skeleton, muscles, joints, ect.) in order to develop the skills and the language of the technique. The *Silvestre Technique* brings to dance training a connection with the physical body and its connection to the universe, which Silvestre calls, "the Body Universe".

Additional class offerings are Orixá Dance Movement, Symbology, Theory, Floor Bar, Ballet and Dance Capoeira.

This program is designed for beginning, advance and professional dancers. The program offers First, Second, Third and Open Level classes. Participants will decide what level of classes they want to take. After two days there may be a change of level if needed. *Dance Bahia* offers a range of study opportunities. Dancers can take part in all classes offered or design their schedule according to individual needs.
